Simulator Sickness Questionnaire

Based on Jerald, J. (2016). *The VR Book: Human-Centered Design for Virtual Reality. Example Questionnaire*. Association for Computing Machinery and Morgan & Claypool Publishers. https://doi.org/10.1145/2792790.2792835

For each of the following conditions, please indicate how you feel right now, on a scale of *none* through *severe*.

1. General discomfort

None			Moderate			Severe

2. Fatigue (weariness or exhaustion of the body)

None			Moderate			Severe

3. Headache

None			Moderate			Severe

4. Eye strain (weariness or soreness of the eyes)

None			Moderate			Severe

5. Difficulty focusing

None			Moderate			Severe

6. Increased salivation

None			Moderate			Severe

7. Sweating

None			Moderate			Severe

8. Nausea (stomach distress)

None			Moderate			Severe

9. Difficulty concentrating

None			Moderate			Severe

10. Fullness of head (sinus pressure)

None			Moderate			Severe

11. Blurred vision

None			Moderate			Severe

12. Dizzy (with eyes open)

None			Moderate			Severe

13. Dizzy (with eyes closed)

None			Moderate			Severe

14. Vertigo (surroundings seem to swirl)

None			Moderate			Severe

15. Stomach awareness (just a short feeling of nausea)

None			Moderate			Severe

16. Burping

None			Moderate			Severe

If you expressed slight, moderate, or severe on any of the questions above, please state if you felt that way before using the system and if so, explain how you felt worse after using the system:
