VRSUQ

Based on Kim., Y. M., & Rhiu, I. (2024) Development of a virtual reality system usability questionnaire (VRSUQ). *Applied Ergonomics, 119*, 104319. https://doi.org/10.1016/j.apergo.2024.104319

1. The system responded well to my manipulations as expected with no delays.

Not at all			Moderate			Very much

2. I think the virtual reality system provides clear feedback on my manipulations.

Not at all			Moderate			Very much

3. (−)I kept making errors/mistakes while using the virtual reality system.

Not at all			Moderate			Very much

4. I could clearly understand the information presented within the virtual environment.

Not at all			Moderate			Very much

5. I think this system is user-friendly, straightforward to learn, and designed in such a way that most people will find it easy to adapt to.

Not at all			Moderate			Very much

6. I think it is easy to correct errors made during virtual reality experiences.

Not at all			Moderate			Very much

7. I enjoyed the virtual reality experience.

Not at all			Moderate			Very much

8. (−) I felt dizzy, motion sickness, or a headache while experiencing virtual reality.

Not at all			Moderate			Very much

9. (−) While experiencing virtual reality, I felt mental burdens such as tension, frustration, and time pressure.

Not at all			Moderate			Very much

SUS

Based on Kim., Y. M., & Rhiu, I. (2024) Development of a virtual reality system usability questionnaire (VRSUQ). *Applied Ergonomics, 119*, 104319. https://doi.org/10.1016/j.apergo.2024.104319

1. I think that I would like to use this system frequently.

Not at all			Moderate			Very much

2. I found the system unnecessarily complex.

Not at all			Moderate			Very much

3. I thought the system was easy to use.

Not at all			Moderate			Very much

4. I think that I would need the support of a technical person to be able to use this system.

Not at all			Moderate			Very much

5. I found the various functions in this system were well integrated.

Not at all			Moderate			Very much

6. I thought there was too much inconsistency in this system.

Not at all			Moderate			Very much

7. I would imagine that most people would learn to use this system very quickly.

Not at all			Moderate			Very much

8. I found the system very awkward to use.

Not at all			Moderate			Very much

9. I felt very confident using the system.

Not at all			Moderate			Very much

10. I needed to learn a lot of things before I could get going with this system.

Not at all			Moderate			Very much
